GOKULRAJ V

FULL STACK DEVELOPER

Erode, Tamil Nadu, India | 9566852637 | gokulv62637@gmail.com

PROFESSIONAL SUMMARY

Passionate Full Stack Developer with hands-on experience building responsive and scalable web and mobile applications using the MERN stack and React Native. Strong in React.js, Node.js, Express.js, MongoDB, REST API development, authentication, database design, CRUD operations, role-based access control, third-party integrations, and AWS S3. Experienced in developing real-world Admin Panels, PG Management Systems, Billing/POS, Payroll, Restaurant Management, Matrimony, Finance, School Management, Quality Checking, and booking applications.

TECHNICAL SKILLS

Frontend: React.js, React Native, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI
Database: MongoDB, Mongoose, Database Design, CRUD Operations
Tools: Git, GitHub, Postman, VS Code, EAS, Expo

Backend: Node.js, Express.js, REST APIs, JWT Authentication
Cloud & Integrations: AWS S3, AWS SDK, Firebase, Third-party API Integration
Development: Responsive UI, Role-Based Access Control, File Uploads, API Integration, Testing & Debugging

PROFESSIONAL EXPERIENCE

Softye Technologies — Software Engineer Trainee | Jan 2025 – Oct 2026

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Designed and integrated RESTful APIs for authentication, CRUD operations, business workflows, and third-party services.
- Built responsive Admin Panels and user-facing interfaces using React.js, Tailwind CSS, and Material UI.
- Worked on PG Management, Billing/POS, Payroll, Restaurant Management, Matrimony, Finance, School Management, and booking applications.
- Implemented authentication, role-based access control, database models, file uploads, and AWS S3 integrations.
- Developed React Native mobile application features using Expo, including API integration and push notification setup.
- Performed API testing with Postman, application testing, bug fixing, debugging, and integration validation.
- Collaborated with team members to implement modules, resolve reported issues, and improve application usability.

KEY PROJECTS

SoftyeOne – Business Management Platform — Worked on Invoice, Offer, Coupon, Membership, Subscription, Settings, and reporting modules. Implemented IGST functionality, invoice workflows, API integrations, UI improvements, testing, and bug fixes.
PG Management System — Developed property, room, resident, booking, staff, complaint, rent, payment, and dashboard features. Implemented monthly rent generation workflows, booking/payment records, check-in/check-out flows, and mobile app API integration.
Softye Go Kart – Race Booking Platform — Developed race booking functionality with frontend and backend integration, booking workflows, API integration, and responsive user interface enhancements.
QChecker — Developed quality checking workflows and reporting modules, including application functionality and API integration.
School Management System — Worked on student and administration management functionalities, including frontend interfaces, backend APIs, and database operations.
Global Finance — Contributed to finance-related modules, backend integration, database operations, and application enhancements.
Today Local & Indiglope — Worked on frontend and backend development tasks, API integration, UI improvements, and application enhancements.
Billing & POS / Inventory — Built billing and inventory interfaces with product management, CSV import/export, field mapping, CRUD operations, and API integration. Improved responsive UI and handled validation and debugging.
Softye Payroll SaaS — Worked on employee and hierarchy management, payroll features, database updates, and automated payroll workflows including PF, ESI, and TDS calculations.
Kalyana Matrimony App — Implemented core authentication flows including login, signup, forgot password, API integration, and initial application development.
Restaurant Management — Developed and fixed restaurant management and POS billing functionality, including UI improvements, API integration, and application testing.

EDUCATION

Bachelor of Engineering – Electronics & Communication Engineering (ECE) | 2022 – 2025
Diploma – Instrumentation & Control Engineering | 86% /**SSLC** | 89.6%

TRAINING & CERTIFICATIONS

- MERN Stack Development – Softye Technologies | Jan 2025 – Dec 2025
- Full Stack Python – Login360 Software Training Institute, Chennai

ADDITIONAL STRENGTHS

Problem Solving • API Development • Debugging • Database Design • Responsive UI Development • Team Collaboration
